Evidencia practica 2

The screenshot shows the Kotlin Playground interface. At the top, the Kotlin logo is displayed. Below it, there are dropdown menus for version (1.9.10) and JVM, and a button labeled "Program arguments". The main area contains a Kotlin code snippet with a multi-line comment and a `main` function. The output at the bottom shows the results of the program execution.

```
/**
 * You can edit, run, and share this code.
 * play.kotlinlang.org
 */

fun main() {
    println("HelloUPIICSA")
    println("HelloUPIICSA_2")
    print("HelloUPIICSA_3")
}
```

HelloUPIICSA
HelloUPIICSA_2
HelloUPIICSA_3
